

## COTTON MARKET CLOSES STEADY

By Associated Press.  
New Orleans, Feb. 24.—Cotton futures opened steady at a decline of 1/8 point on the near months and 1 point lower to 2 points higher on new crop positions. Old crop deliveries responded to lower Liverpool cables than due, while the new crop appeared to be influenced by further delay in farm work through continued rain in the south and a good part of the business appeared to be making strides which buyers on the recent advance selling old crop deliveries and buying in their new crop shorts. Trading here was comparatively quiet after the opening and prices held within 4 or 5 points of the initial figures.  
The market closed steady at a decline of 2 points to an advance of 3 points. Spots closed weak, 20 points down from

### New Orleans Futures.

New Orleans, Feb. 24.—Cotton futures opened steady at a decline of 1/8 point on poor cables. Immediately after the call prices were 2 to 8 points down to 2 point up compared with the cause of pessimistic reports concerning the labor situation in England. The weather map was very unfavorable, heavy rains being predicted over a great part of the cotton belt. This supported the new crop and finally gave the whole list a better feeling. Shorts commenced to buy covers over the week end and at the end of the first half hour of business, prices were 1 point down to 1 point up compared with the close of yesterday.  
Toward the middle of the morning, cablesgrams were received from one of the most prominent firms in the English cotton trade stating that while the labor situation was serious they were confident there would be no coal strike. This and the forecast of more rain in the cotton belt over Sunday encouraged buying for long account and caused a general covering movement among shorts. The supply of contracts was limited and the market firmed up rapidly. At the highest, prices were 5 to 7 points over last night's final quotations. The new crops continuing to display the most strength.  
The cotton steady unchanged. Middling 10 7/16. Sales on the spot 1,700 bales, to arrive 300.

### Liverpool Market.

Liverpool, Feb. 24.—Cotton spot quiet, prices 4 points lower. American middling, fair, 6.53; Good middling, 6.15; Middling, 5.89; Low middling, 5.59; Good ordinary, 5.21; Ordinary, 4.83.  
The sales of the day were 8,000 bales, of which 1,000 were for speculation and export, and included 7,000 bales American.  
Receipts were 21,000 bales, all American.  
Futures opened quiet and steady and closed easy.

## STOCK MARKET CLOSES STEADY

By Associated Press.  
New York, Feb. 24.—Heaviness was reflected in the opening prices on the stock exchange today. Substantial recessions were recorded by most of the leading issues, including the Coppers, which had been in a steady decline since the 1st. The only notable gain was a point advance in Wheeling and Lake Erie first bid. The ascendancy in the proposed "money trust" inquiry. Amalgamated Copper, yesterday's strongest feature, lost 1 1/4 to 67 1/2, a further loss of 5 1/2. The market closed steady. Substantial recoveries were made in the last hour. Union Pacific selling above yesterday's best. Prices shaded in the final dealings.

## CHICAGO GRAIN AND PROVISIONS

By Associated Press.  
Chicago, Feb. 24.—Wheat eased off today owing to favorable weather conditions and because of indifference shown by foreign markets to strength on this side of the Atlantic. Opening prices in Chicago were the same as last night to 1-4 down. May started at \$1.00 5/8, 25-4c, unchanged to 1-8c lower and suggested to \$1.00 1-25-8c.  
Prospects of continued unsettled weather formed a decided buying influence in the corn pit. May opened at last night's level to 1-8c off 68 3/4 to 68 1/2c then rose to 68 3/4c.  
There was not much pressure to sell oats. May started at 52 1/2c lower to a like amount up at 52 1/2c-8c and suggested to 52 1/2c-8c.  
Big receipts of hogs weighed down provisions. Initial transactions varied from 5c down to a shade advance with May \$15.40 for pork, \$9.02 1/2 for lard, and \$8.55 for ribs.  
Wheat—A rally ensued on assertions that wheat surplus in the four leading export countries showed a loss of 435,000,000 bushels. The close, however, was weak with May 1-4c not lower at \$1.00 5/8.  
Corn—Poorness of corn except call brought about a reaction. The close was steady with May at 68 3/4c, a net loss of 1-8c.

## NEW FEATURE IS ATTRACTING MUCH INTEREST

GENERAL MANAGER LILLARD RECEIVES LETTER ASKING FOR INFORMATION ABOUT FLOWER EXHIBIT AT INTERSTATE FAIR.

N. J. Lillard, secretary and general manager of the Pensacola Interstate Fair Association, has received a letter from Miss Nellie M. Jerauld, of Camp Walton, asking for information concerning the flower show, the latest feature added to the list of attractions for the fair of 1912. Miss Jerauld is very enthusiastic over this feature, as are others in the fair district, and the prospects are that this will prove one of the most popular of the many attractions to be seen at the fair this year.

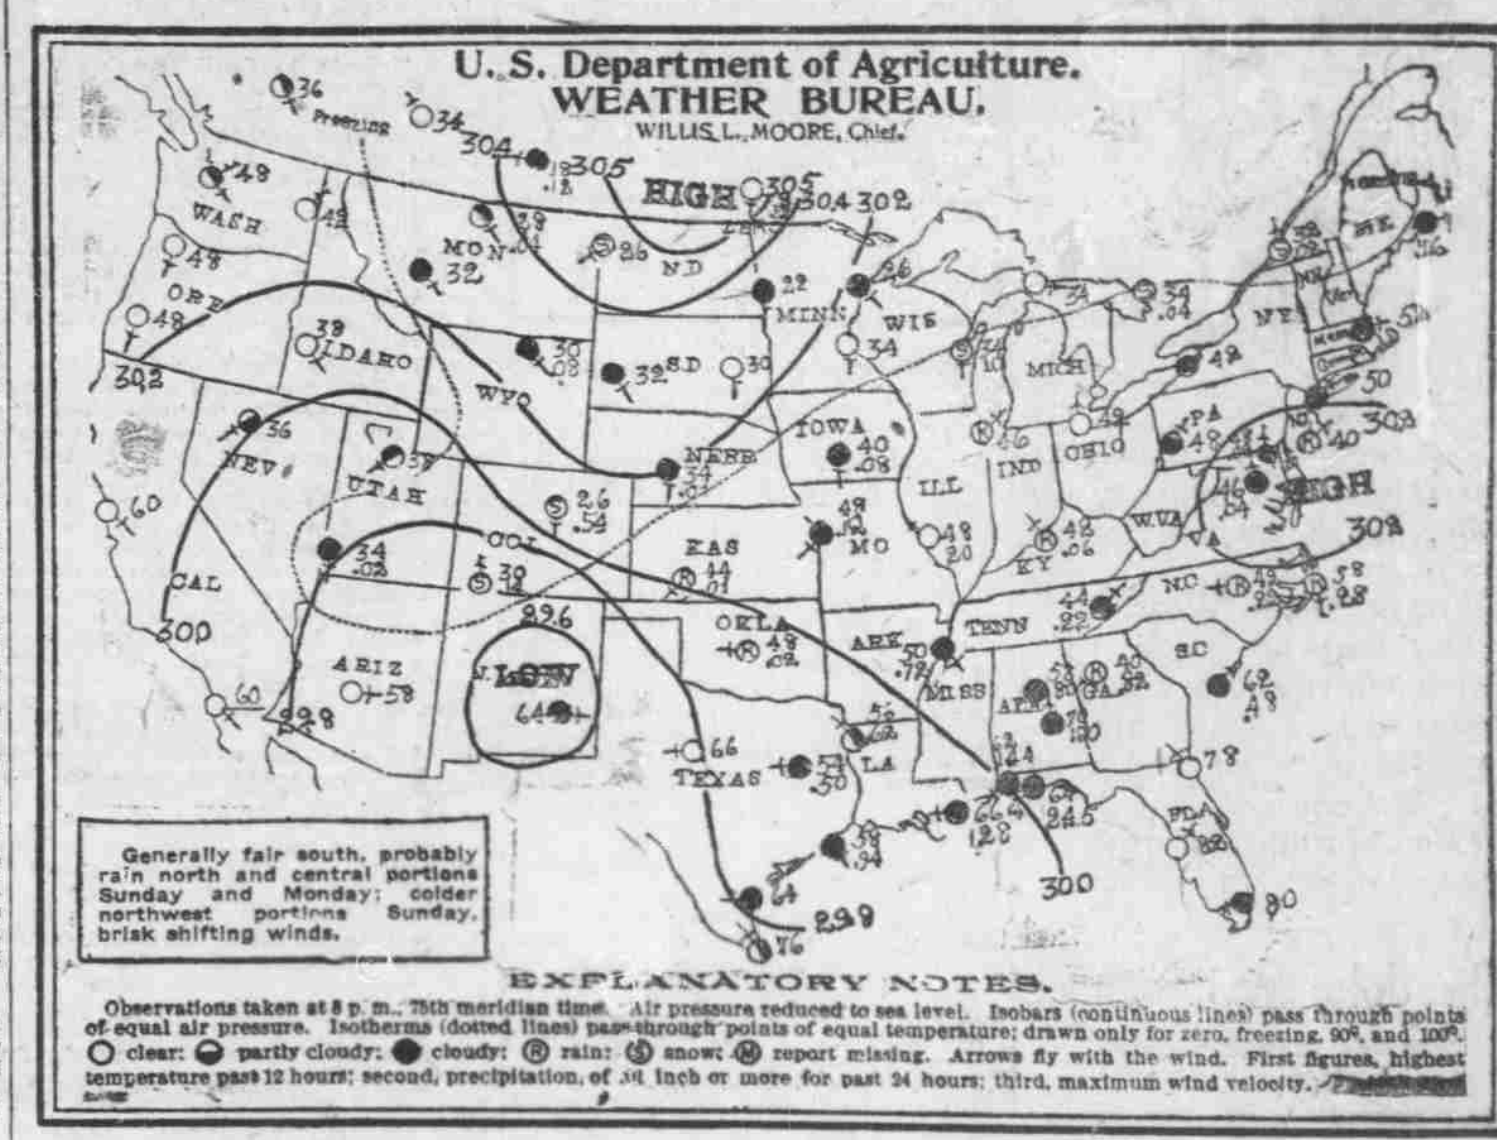

Mr. Lillard is also very sanguine over his feature and believes that it will not only prove a drawing card this year, but that an exhibition of this kind will be beneficial and helpful to people who are interested in the cultivation of flowers and that it will advertise one of the resources of West Florida which has hitherto been overlooked.

Mr. Lillard has already answered the letter of Miss Jerauld, giving her all of the information available and has referred her communication to A. M. Avery, chairman of the flower committee, for further information.
